Objective

Motivated MERN Stack Developer with a strong foundation in JavaScript and full-stack development. Looking for an entry-level opportunity to contribute to real-world projects and enhance my technical skills.

Technical Skills

- Frontend: React, HTML, CSS, JavaScript, Bootstrap, Tailwind CSS
 - Backend: Node.js, Express.js
 - Database: MongoDB, Mongoose, Sql
 - Tools: Git, GitHub, Terminal(CLI), VS Code
 - Deploy: Render, MongoDB Atlas, Netlify
-

Project

Wonder – Property Listing Platform

Built a full-stack listing platform with secure authentication and real-time database operations, demonstrating REST API design and deployment skills.

Tech Stack: Node.js, Express.js, MongoDB, EJS, Bootstrap

- Implemented user authentication and authorization using sessions/JWT
- Built CRUD functionality for property listings
- Integrated image upload for listing photos
- Designed RESTful APIs and connected MongoDB database
- Deployed the application for public access
